 - 7.8.5 If the match is stopped and cannot resume for the reasons stated above, then it will be considered abandoned. - 27.1 To protect players' health as well as to prevent players from experiencing sudden cardiac death during matches at The Competition, each Participating Club will ensure and confirm to Concacaf that its players underwent a pre-competition medical assessment (PCMA) prior to the start of The Competition. The medical assessment form will also include the signatures of the President and General Manager of the Participating Club and must be received by the Concacaf General Secretariat at the latest seven (7) business days prior to the start of The Competition.
- 27.3 Further to the above, each team must have a duly licensed medical professional (i.e., a doctor) as part of their 23-person official delegation. doctor and the medical emergency team (stretcher team) to immediately institute comprehensive resuscitation that includes the use of a defibrillator (AED) and CPR. Up to three minutes should be sufficient time to make this assessment. Once the player has left the field of play, he must be given a Sideline Concussion Assessment Test (SCAT) or similar test. It is the responsibility of the team doctor to determine the player's ability to return to play.
