2022 Scotiabank Concacaf Champions League

# 2022 SCCL RANKING

## How the club ranking is calculated

The Scotiabank Concacaf Champions League Club Ranking is based on the on-field performance of the various clubs of the same country that have occupied a qualifying slot in the previous five editions of the competition. The ranking does not rank individual clubs.

## Calculating formula

To determine the total points awarded to a countries slot(s) (i.e. MEX 1) in any single edition of the competition, Concacaf utilizes the following formula:

$$\text{Total Points} = 3 \text{ Points per win} + 1 \text{ Point per tie} + 1 \text{ Point per stage advanced} + 4 \text{ Points for Participating} + 2 \text{ Points for winning the competition}$$
